

### Sunflower Lantern

Lisa Vogt,  
from the book  
"Home Accents"

Cut 2 sides of the pattern as given. Reverse the pattern and cut the other 2 sides. Cut a 4" x 4" piece of glass for the base of the lantern. When each side is soldered, form a box out of the four sides and the base. Use masking tape or electrical tape to hold the panels in place while you solder the lantern together. Add a candle and enjoy!

### Spectrum Glass Color Suggestions

- |              |                              |
|--------------|------------------------------|
| A. 6067-83CC | Mimosa                       |
| B. 411-15G   | Brown/ Gold streaky, Granite |
