Navy Blue

111W
Dark Amber

152W
Ruby Red

543-2W
Grape

538-4W
Steel Blue

We've taken great care to present our glass as true-to-life as possible. Since computer monitors and printers vary widely, and may not reliably portray the glass or its color, please use this sheet as a reference tool only. You may want to consider purchasing a glass Sample Set for selecting just the right glass for your projects.

Spectrum Waterglass® is a natural surface texture created by stretching the hot glass sheet while it is still in a pliable state. The result is gentle, rolling waves that resemble the surface of a lake or stream. The stretching process also renders a highly pristine surface and a slightly narrower sheet.

Though many imitators have tried, mechanically-rolled patterns simply can not approach the subtle, delicate nature of the true Waterglass texture.

130.8W
Pale Blue

121W
Light Green

125W and I/125W
Dark Green
